

PT. VERTEX
ASIA ENERGY

Company Profile

PT. Vertex Asia Energy is a trusted Indonesian biomass supplier delivering premium Palm Kernel Shell (PKS) with reliable supply chain, strict quality assurance, and professional export services for global

About Us

OUR COMPANY

PT. Vertex Asia Energy is an Indonesian biomass energy company specializing in the sourcing, quality management, and global export of premium Palm Kernel Shell (PKS). With Indonesia's abundant natural resources and strategic position as one of the world's largest palm oil producers, we connect sustainable Indonesian biomass resources with international renewable energy markets. We manage every stage of the supply chain—from supplier selection, cargo collection, stockpile management, quality inspection, vessel loading, and export documentation—to ensure consistency, reliability, and customer satisfaction. More than a supplier, we are a long-term strategic partner committed to integrity, transparency, and sustainable business growth.

Our Vision

OUR COMPANY VISION

To become a globally trusted leader in sustainable biomass energy supply, delivering premium Indonesian Palm Kernel Shell and creating a greener future for the next generations.

Our Mission

OUR COMPANY VISION

PT. VERTEX
ASIA ENERGY

Sustainable Supply Chain

Building a reliable supply network through trusted suppliers and responsible sourcing.

Premium Quality

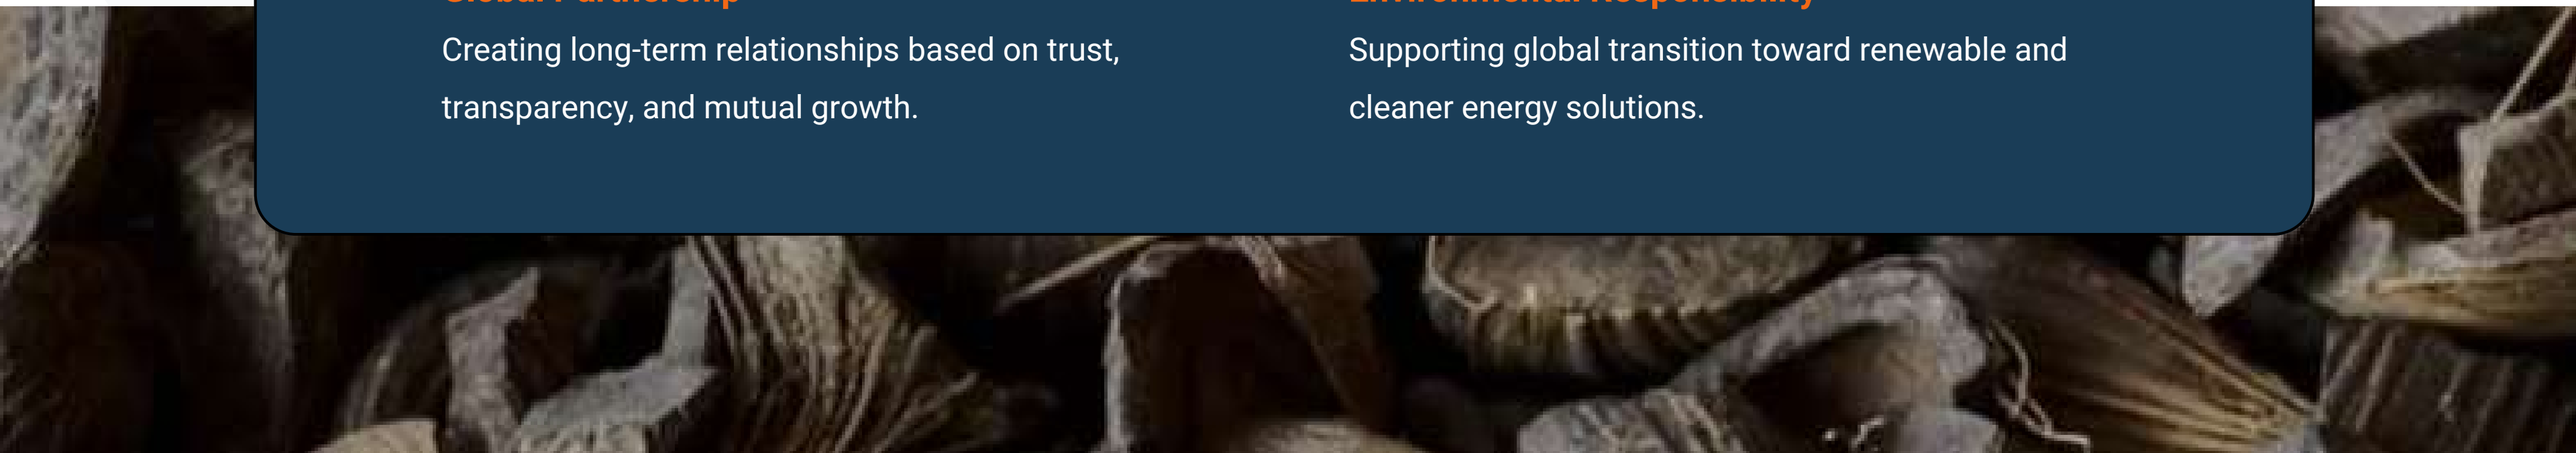

Delivering consistent product quality through strict inspection and quality control.

Global Partnership

Creating long-term relationships based on trust, transparency, and mutual growth.

Environmental Responsibility

Supporting global transition toward renewable and cleaner energy solutions.

Our Product

WHAT WE PROVIDE

We supply high-quality, sustainable Palm Kernel Shell (PKS) sourced from selected palm oil producing regions across Indonesia. As a reliable biomass fuel solution, our PKS is managed through a controlled supply chain to guarantee consistent quality and steady availability for global energy markets.

Premium Palm Kernel Shell (PKS)

Reliable Export & Logistics: Delivered in bulk cargo via professional vessel loading operations primarily out of Jakarta, Indonesia (FOB terms), backed by integrated stockpile management.

OUR PRODUCT

Palm Kernel Shell (PKS)

Palm Kernel Shell (PKS) is a sustainable biomass fuel derived from the palm oil industry, offering high calorific value, low sulfur content, and reliable performance for biomass power plants and industrial applications.

- Product
  Palm Kernel Shell (PKS)
- Origin
  Indonesia
- Loading Port
  Jakarta, Indonesia
- Shipment Method
  Bulk Vessel
- Gross Calorific Value (GCV)
  4,000 – 4,600 Kcal/kg
- Moisture Content
  Max. 15 – 20%
- Ash Content
  Max. 3 – 5%
- Sulfur Content
  Max. 0.1%
- Foreign Matter
  Max. 0.5%
- Size
  Natural Shell
- Packing
  Bulk Cargo
- Supply Capacity
  Subject to Contract Requirement
